SUBJECT: Municipal Wastewater Annual Report	
APPLICANT PRESENTATION:	N/A
STAFF PRESENTATION:	Jeff Maag

#### **BACKGROUND AND FINDINGS:**

The Utah State Department of Environmental Quality requires that Cedar Hills submit an annual report for our "Municipal Wastewater Planning Program" collection system and financial evaluation. We have prepared the report for review. The State Water Quality Board requests the following action be completed by City Council: 1) City Council acknowledges that they have reviewed the 2016 report and 2) If applicable; City Council has taken all appropriate actions necessary to maintain effluent requirements contained in the UPDES Permit.

As a note, this year the report indicates that the City of Cedar Hills does not have a Direct Report (DRC) for the water system. The City has one year in which to find a qualified individual to serve as the DRC. Currently Jeff Maag is attending trainings in order to be certified as the DRC for Cedar Hills

SUBJECT:	Review Action on Reconfiguring Heiselts Hollow Park to be used as a Multipurpose Field			
APPLICANT PRESENTATION:	N/A			
STAFF PRESENTATION:	Chandler Goodwin, City Manager			

#### **BACKGROUND AND FINDINGS:**

Councilmember Bailey has asked staff to look into the option of reconfiguring the Heiselts Hollow baseball field to be used as a multipurpose field. Currently the infield of the baseball diamond is grass; reconfiguration would include removing the grass and replacing it with dirt. This would allow the field to be used by both baseball and softball teams in the community.

SUBJECT:	Discussion on American Fork Canyon Water
APPLICANT PRESENTATION:	N/A
STAFF PRESENTATION:	Chandler Goodwin, City Manager

#### **BACKGROUND AND FINDINGS:**

In light of the Tibble Fork Dam incident last August where sediment was released downstream which contained heavy metals, Cedar Hills is closely monitoring the spring runoff. Cedar Hills pressurized irrigation system is partly supplied by water from American Fork Canyon. While individuals should never drink irrigation water, Cedar Hills wants to ensure that the water that is being supplied to the residents complies with safe water standards. In order to closely monitor the situation, we are recommending that the City conduct soil tests prior to, and a month after the irrigation season begins, as well as testing the spring runoff water directly. These tests will monitor current levels of heavy metals in the soil and water as well as after the spring runoff.
