## WATER RESTRICTIONS

A flyer was distributed to each household in Cedar Hills regarding newly mandated watering restrictions. Non-compliance will result in a warning and then escalating fines. Here is the information contained in that flyer:

The City of Cedar Hills thanks all residents who have made an attempt to conserve water in this difficult water season. Although the irrigation water supply is plentiful and storage capacity is sufficient, the demand on our secondary water system has dramatically increased, negating our ability to regenerate sufficient water through pumping to our storage reservoirs.

Due to this emergency, effective July 22, 2005, all residents will be allowed to water landscaping and other outdoor uses on **MONDAY, WEDNESDAY, FRIDAY, and SUNDAY** only. Please adjust watering efforts, including automatic sprinkler systems, to comply with this regulation. Watering may begin on Monday, Wednesday, Friday, and Sunday at 12:01 A.M. until 10:00 A.M. and may resume at 6:00 P.M. until 11:59 P.M. This will allow up to 16 hours of outdoor water use. Compliance to this schedule is necessary for the system to maintain adequate service to all City residents. If you are not connected to pressurized irrigation or choose to use culinary water for outside use, the water restrictions still apply.

**A non-compliance fee will be assessed to those who do not follow the above watering schedule. A summary of the fee may be obtained at the City office.**

As residents make efforts to implement this watering schedule, it is the City's desire to provide a useful secondary system for all. At the end of this watering season, the City intends to examine how to expand the pumping capacity of the system to better meet the needs of the City. Thank you again for your attention to this matter. Together we can make a difference.

## FIRE DANGER AND FIREWORKS A MESSAGE FROM FIRE CHIEF CRAIG CARLISLE

Due to the extremely dry conditions, the fire department is asking parents to speak with their children about the unsupervised use of matches and fireworks. July 4<sup>th</sup> and July 24<sup>th</sup> have passed, so it is no longer legal to discharge fireworks of any kind for the remainder of the year. The use or sale of unauthorized fireworks is a Class B Misdemeanor. Individuals using illegal fireworks that cause a response from the fire department could be billed for that response in addition to receiving a citation.
